# **Project Planning Phase**

## **Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)**

| Date          | 5 October 2022   |
|---------------|--|
| Team ID       | PNT2022TMID00825   |
| Project Name  | Project - Traffic and Capacity Analytics for Major Ports |
| Maximum Marks | 8 Marks  |

### **Product Backlog, Sprint Schedule, and Estimation (4 Marks)**

Use the below template to create product backlog and sprint schedule

| Sprint                | Functional<br>Requirement (Epic)     | User Story<br>Number | User Story / Task   | Story Points | Priority | Team<br>Members   |  |
|-----------------------|--------------------------------------|----------------------|---|--------------|----------|---|--|
| Sprint-1 Registration |                                      | USN-1                | JSN-1 As a user, I can register for the application by entering my email, password, and confirming my password. |              | High     | Neerajj.S,<br>D.J.Prashanth                                       |  |
| Sprint-2              | Login to Dashboard                   | USN-2                | As a user, I can log into the application by entering email & password  | 1            | High     | Pranav<br>Pandy.M ,<br>Nanthu.A.S                                 |  |
| Sprint-3              | Open and work in Cognos              | USN-3                | As a user, I can open the cognos analytic workspace   | 1            | Medium   | Pranav<br>Pandy.M ,   |  |
|                       | Upload Dataset                       | USN-4                | As a user, I can upload the dataset in the workspace  | 1            | High     | D.J.Prashanth   |  |
|                       | Visualize the data                   | USN-5                | As a user, I can visualize the dataset in different forms   | 2            | Medium   |   |  |
| Sprint-4              | Data Analysis and traffic Prediction | USN-6                | As a user, I can predict and schedule the traffic   | 2            | High     | Neerajj.S,<br>D.J.Prashanth,<br>Pranav<br>Pandy.M ,<br>Nanthu.A.S |  |

**Project Tracker, Velocity & Burndown Chart: (4 Marks)** 

| Sprint   | Total Story<br>Points | Duration | Sprint Start Date | Sprint End Date (Planned) | Story Points<br>Completed (as on<br>Planned End Date) | Sprint Release Date (Actual) |
|----------|-----------------------|----------|-------------------|---------------------------|---|------------------------------|
| Sprint-1 | 20                    | 18 Days  | 1 Nov 2022        | 19 Nov 2022               | 20  | 19 Nov 2022                  |
| Sprint-2 | 20                    | 15 Days  | 4 Nov 2022        | 19 Nov 2022               | 20  | 19 Nov 2022                  |
| Sprint-3 | 20                    | 12 Days  | 07 Nov 2022       | 19 Nov 2022               | 20  | 19 Nov 2022                  |
| Sprint-4 | 20                    | 5 Days   | 14 Nov 2022       | 19 Nov 2022               | 20  | 19 Nov 2022                  |

#### Velocity:

Imagine we have a 10-day sprint duration, and the velocity of the team is 20 (points per sprint). Let's calculate the team's average velocity (AV) per iteration unit (story points per day)

$$AV = \frac{sprint\ duration}{velocity} = \frac{20}{10} = 2$$

#### **Burndown Chart:**

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.
